TRINIDAD MARGNI

SENIOR PROJECT MANAGER | IT TEAMS & PROJECT DELIVERY | CERTIFIED SCRUMMASTER (CSM®)

trinidadmargni@gmail.com | www.trinidadmargni.com | linkedin.com/in/trinidadmargni | CABA, Argentina

~6 years of experience. Leading cross-functional teams and managing digital and IT projects in global environments, with a focus on **risk management, capacity planning and AI-enabled delivery**. Currently leading **~40 IT professionals** (Developers, DevOps Engineers, Data Engineers and QA Automation) on the ServiceNow account at Nortal across 14+ countries. Previously managed web releases and campaign delivery for **United Airlines** and email development for **YouTube**, coordinating Developers, QA and Design in hybrid Agile/Waterfall environments.

WORK EXPERIENCE

TSM | IT Team Manager & Project Operations *Sept. 2025 – Present*

Nortal | ServiceNow Account

- Lead ~40 IT professionals (Developers, DevOps Engineers, Data Engineers, QA Automation) across 14+ countries and time zones on the ServiceNow account, one of Nortal's largest, identifying and mitigating risks, resolving blockers and surfacing strategic opportunities through structured 1:1s.
- Own project reporting for ~10 engineering and platform teams, each running 3 to 5 concurrent projects, consolidating status, risks and dependencies for management and maintaining the Project Bank. Initiatives reported include AI chatbot and Live Agent features, CI/CD and cloud automation, QA test automation, data engineering pipelines and platform migrations.
- Drive AI-enabled delivery management: use Claude to automate status reporting, project tracking updates, timesheet reviews (Jira Tempo) and documentation, cutting the weekly timesheet review from ~1 hour to ~10 minutes and the monthly close from a full day to ~1 hour.
- Redesigned the account's onboarding process end to end, with week-by-week milestones, tooling and support structure. New joiners now reach independence in ~3 weeks, down from ~6 and ahead of the client's 4-week target.
- Run staffing and account growth initiatives as delivery projects and act as direct point of contact for ServiceNow leadership: monitor capacity and forecast in Certinia, define role requirements, coordinate interviews and onboard new teams when new SOWs open.
- Advance AI adoption on the account: assessed current adoption and presented recommendations to Nortal management, then support team members' AI maturity goals by identifying where AI can be applied and helping them secure tools, licenses and training.

Senior Project Manager | Email Development Delivery *April 2024 – Sept. 2025*

.Monks | YouTube Team

- Managed ~15 concurrent email development campaigns for YouTube, delivering ~15 to 20 releases per month, coordinating Developers, QA and Design across the full lifecycle in a zero-error-tolerance environment where each release reached millions of users.
- Owned resource allocation and capacity planning for all concurrent releases, built on the quarterly campaign plan, tracking technical dependencies, flagging risks early and removing blockers to protect delivery dates.
- Handled late scope changes on fixed-date legal communications by re-planning capacity with Developers and QA, reusing components from earlier campaigns and aligning trade-offs and approvals with the client.
- Facilitated daily scrums, retrospectives, quarterly planning and kick-offs within a hybrid Agile/Waterfall framework, owning risk identification and blocker resolution.
- Worked directly with YouTube stakeholders at Google across 3 continents and 12+ countries, fully in English, coordinating the localization of campaigns into 20+ languages. Tools: Monday.com, Buganizer, L10N.

Mid-Level Project Manager | Web Releases & Campaign Delivery *March 2023 – April 2024*

VML | United Airlines Team

- Project Manager of DQK, a dedicated team delivering web releases and bug fixes for United Airlines' loyalty portal, coordinating production releases across Development, QA, Design and stakeholders in parallel with all ongoing campaigns, and owning dependency tracking, approval workflows and technical blocker resolution.
- Managed a steady pipeline of 15 to 20 concurrent email campaigns for United Airlines, including co-branded campaigns with partners such as Universal Orlando, Disney World, Apple and the NFL, reaching millions of users. Owned resource and capacity planning across all initiatives.
- Created the campaign project management documentation in Notion on an account that had none, with step-by-step workflows, pre-send review checklists and improved brief and kick-off templates, making onboarding easier and reducing the margin for error across global English- and Spanish-speaking teams.

- Facilitated daily scrums, retrospectives and kick-offs in a hybrid Agile/Waterfall framework, identifying risks early, unblocking Developers, QA and Design, and leading retrospectives after any error.
- Led root-cause analysis of a campaign defect affecting a specific mobile device, tracing it through version history to duplicated code, then improved QA and development processes and kept the client informed.
- Worked with US-based client stakeholders across time zones, entirely in English. Tools: Jira, Adobe Workfront, Oracle Responsys, Salesforce, Notion.

Digital Project Manager | Marketing & Web Development *Dec. 2020 – March 2023*
Snappy Commerce

- Managed marketing and digital projects end to end with an OKR-driven approach, coordinating a cross-functional team of ~7 across marketing, customer experience, UX/UI design and development.
- Built the company's SEO strategy from scratch, reaching page one of Google for several relevant keywords and growing inbound traffic in close collaboration with developers.
- Led the full rebranding of the website and social media, delivered in about a month with the development team.
- Ran 1 to 2 PR campaigns per month with other brands and produced the company podcast. Contributed ideas to improve conversational flows of IBM Watson-based virtual assistants.

EDUCATION

MBA | Master in Business Administration *2026 – Ongoing*
UAI | Universidad Abierta Interamericana
